Certification

I understand that I may not travel unless I obtain a health clearance, and I certify that all of the information I have provided in the Student Health Clearance Packet is complete, true, and accurate. I understand that if I misrepresent or fail to provide the information requested in the Student Health Clearance Packet, then I may be barred from participation in, dismissed from, or told to discontinue the Harvard travel plans I have chosen. I further understand that if there are any changes in my health status after I have completed the Student Health Clearance process, then I must contact Harvard immediately; I also give permission to my health provider to contact Harvard directly in that circumstance. I understand and agree that health clearances are conditional, meaning that if, between the time I obtain a health clearance and the time of my planned departure, Harvard learns of any changes to my physical or mental health, then my health clearance may be reevaluated and may be revoked.

GENERAL REQUIREMENTS OF HARVARD TRAVEL PARTICIPATION

In addition to meeting any specific requirements of the international travel plan or program they have chosen (as set forth in the written description provided by the student), students must meet the following requirements:

• Possess the physical and mental well-being required to live and study in the applicable foreign setting, where resources may be different or fewer than those to which they are accustomed; exercise good judgment and safely fulfill all essential components of their program, including appropriate standards of conduct;
• Be able to display flexibility and to function in the face of potentially uncertain or stressful situations;
• Be able to align their health care needs with the limited resources that may exist nearby;
• Be able to live in a setting different from what they may be accustomed to and that may aggravate existing health conditions (e.g. dormitories that may not be air-conditioned or afford privacy, homestays with local families, etc.);
• Participate in typical classroom work;
• Participate in planned excursions and activities in the area, which may include moderate physical activity.
Part 3: If applicable, to be completed by licensed medical or mental health specialist (may not be a family member of student) and submitted to Harvard

If the student is seeing one or more specialists, or has seen one or more specialists within the past year, for the treatment of a serious, ongoing, or chronic condition, then the approval and signature of each specialist must be obtained before final clearance is signed by a Primary Care Clinician. If this section does not apply, please skip to the next section. This section may be photocopied as needed.
